Maximum Marks	4 Marks

Empathy Map Canvas – Project Context

Primary user: Service Desk Agent. The empathy map captures the user's goals, behaviour, concerns, challenges, and expected gains while creating and managing Incident records in ServiceNow.

Original supplied empathy-map image retained for reference.

Editable Project-Specific Content

USER / PERSONA

- Service Desk Agent

THINK & FEEL

- Wants to create accurate Incident records.
- Wants all important information to be complete.
- Wants to avoid data-entry mistakes.
- Wants High Impact Incidents to be handled correctly.
- Wants the system to guide them during Incident creation.

HEAR

- “Please complete the required fields.”
- “This Incident has High Impact.”
- “The Incident needs to be assigned.”
- “Incorrect Incident information can cause problems.”
- “High-impact Incidents need proper handling.”

SEE

- Incident form with multiple fields.
- Impact and Urgency fields.
- Assignment fields.
- Required and optional fields.
- Incident records in list view.

SAY & DO

- Creates Incident records.
- Enters Incident information.
- Selects Impact and Urgency.
- Assigns Incidents to support users.
- Updates Incident State.
- Submits Incident records.

PAIN

- Important fields may be left empty.

- Manual checking can cause mistakes.
- Incorrect values may be entered.
- High-impact Incidents may not be handled consistently.
- State can be changed directly from list view.
- Incomplete Incident records can affect data quality.

GAIN

- Complete Incident records.
- Fewer data-entry errors.
- Automatic field updates.
- Clear validation messages.
- Consistent handling of High Impact Incidents.
- Better Incident data quality.

Empathy Map Summary

Area	Key Understanding
User	Service Desk Agent
Main Goal	Create and submit complete and accurate Incident records.
Main Challenge	Manual data entry can result in missing, inconsistent, or incorrect information.
Main Pain	Incomplete data, manual mistakes, incorrect values, and uncontrolled State changes.
Expected Gain	Better data quality, automatic updates, validation, and consistent Incident handling.

This document keeps the supplied empathy-map image and adds editable Word text for all project-specific content.
